60TH ANNIVERSARY ROMAN C. BROTZ MEMORIAL REGATTA
SHEBOYGAN YACHT CLUB, SHEBOYGAN, WISCONSIN
AUGUST 29, 2020

Lightning

This year's Brotz regatta was like no other. In puffy NW winds a boat capsized before the start and the crew could not get it righted. After the race committee got the crew out of the water safely other skippers and crew took their boats ashore and went out with the race committee to retrieve the overturned Lightning. Our sincere thanks to Todd Wake, Doug Wake, Bill Faude, Jason Bemis, and Jared Drake together the with race committee. They showed great care and dedication in making sure everyone ended the day safely and no boat was lost. After regrouping on shore 5 boats went out for three great races in windy conditions. Todd Wake went out with the race committee to help with any possible rescue. Bill Faude won the regatta showing how tough his team of Jared Drake and Amy Simonson really are when the weather is heavy**.--Hans Graf, Brotz Regatta Chairman**

2020 WORLD YACHTS DF 65 SUMMER B CHAMPIONSHIP SERIES
SOUTH SHORE YACHT CLUB, MILWAUKEE, WISCONSIN
AUGUST 16 - OCTOBER 25, 2020

The World Yachts DF 65 Championship summer series came to a close on October 25th with more than 12 boats competing. After 45 races, Dave Jerominski holds the top spot with John Sutphen and Clark Fremgen rounding out second and third place. While most of summer sailing was cancelled, the DragonForce 65 fleet was in a unique position to continue to hold races while remaining socially distanced. A special thanks to our race committee volunteers: Lisa Roeder, Ron Jerominski, Heather Robertson, and Erin Hill.
--Andrew Van Sickle, Fleet Captain

6.	Holton	-7	4	5	6	6	21
7.	Alberte - Jr.	6	6	6	-7	4	22
8.	McGlew	-8	8	8	5	8	29

2020 POP-UP REGATTA
MENDOTA YACHT CLUB, MADISON, WISCONSIN
AUGUST 15, 2020

MC Scow

The Mendota Yacht Club behind the efforts of Afan Ottenheimer and David Sebald decided a regatta should be organized in an effort to get some MC racing in during a time when our club suspends racing during originally scheduled ILYA championships with the hopes other clubs might have a need to attend a last-minute COVID aware regatta. As it turns out, many clubs DID race this weekend and our off-lake attendance did not pan out. We did hear there would be interest in our venue for events down the road. What a day of sailing it turned out to be! Boats were rigged in rainy conditions, there was a brief postponement and the morning races got started around 11:30 by race officer Anma Ingeana with Don Sanford setting marks in a formidable 12-16 mph breeze from the NNW. The roster highlighted youngsters Billy and Mitch Fitton whose ages combined (15 and 12) was still less than a third of the eldest competitor. These lads beat the eventual event winner to the first mark in race #1 in challenging conditions. The wind was brisk, wave sets were building and the course location allowed for interesting effects of wind curving out of Warner Bay around massive Maple Bluff menacingly close to the windward mark. For reasons unknown to this writer it paid big time getting close to the bluff, other times not so much. I wouldn't call it a regular oscillating wind pattern but there were big lines of breeze coming in from both the right and the left sides very randomly throughout the day. The sky cleared at lunch break, the wind died and then filled in mightily for races #3 and #4 (13-18 mph, gusts at our University weather buoy reaching 21 the one time we checked). It didn't take long for the waves to start building but they never became entirely unmanageable due to the northerly wind direction and our proximity to that shore. Racing was extremely close and the lead changed regularly in nearly all races. At lunch break after two races, three racers were tied with 4 points. The afternoon sailing was challenging and a couple boats split up their crews to sail with some of the lighter single-handed skippers. It didn't help Afan Ottenheimer any when his hiking stick failed completely in race three. A line tied to the tiller made it possible to hike out or bear off but leeward roundings got a little tricky. Every neck and neck downwind run, upwind tacking decision or boat handling skills at roundings or in general really mattered all the time. Any of the top three racers could easily have won the event. It came down to the last race. We all knew we had experienced a great full day of sailing when we kicked back at Burrows Park. This was a good first effort for our club to host a regional MC regatta. We would like to communicate with the MCSA to see if there might be a warm water date that would serve as a good fit for a possible Mendota/Monona shared regatta … perhaps alternating lakes. Lake Mendota is such a great venue offering a bigger lake experience and Monona has it going on with its smaller size, shifty winds and beautiful capitol skyline views. Both lakes are within an hour or so of many Wisconsin sailors. Thanks to the MCSA for all the help that was provided…Fleet 69.—**Stefan Schmidt**

2020 FULL MOON RACE
KENOSHA YACHT CLUB, KENOSHA, WISCONSIN
JULY 30, 2020

A pursuit format race, featuring a start from the dock and take your own finish time. It was awesome to see so many sailboats tied up at Kenosha Yacht Club on a beautiful Thursday evening. It was also great watching the entire fleet converge on the harbor but safely & socially distant from each other. Those walking along the harbor were treated to some great scenery at the finish. 2020 HOOK RACE
RACINE YACHT CLUB, RACINE, WISCONSIN
JULY 18, 2020

This year's race started in a feisty southerly downwind breeze that later featured two sets of fierce squalls that broke six masts, some spinnaker poles, blew out mainsails, genoas, spinnakers, destroyed shackles, one spreader, and tested the skill of all the sailors. "The sailmakers' dream." Squall #1 was in afternoon daylight with gusts reported to at least 50 knots. Squall #2 was in the dark between 3:30 and 5:00 am (depending on how far north a boat had reached), with winds of 50 knots and gusts to possibly 70-80 knots. Ed Montano said, "The second one had the most electricity I've ever seen in a storm. Made you squint!" The overboard story is on the cover of this issue. Boats reported setting speed records and have reported over 18 knots. *Thunderstruck* was first to finish and set a new course record that had stood for 34 years that is 3 hours faster. A record 100 boats had entered, as boats chose the HOOK Race after the Chicago-Mackinac race, originally scheduled for this date but abandoned due to the COVID-19 pandemic, left a gaping hole in their race schedule. 92 boats started the race and 54 finished. *Tejas* shot video surfing: https://bit.ly/31cDNEE. *Rocketman* video before first squall: https://bit.ly/2DvXWNS. *Audacity* video before first squall https://bit.ly/39PViP5. The Kattack tracking is available here: https://bit.ly/3k7DNy6. A few boats are not displayed as they did not have a cell phone registered to the Kattack app; some boats drop in and out of the display as Kattack is a low cost, cell phone based app and phone signal gets lost due to distance from a tower, phone below on certain hull types, phone battery failing, and other reasons. **–Gail Turluck**

The crew of the Tartan 10 Skidmarks managed to get to shore minus a spreader. Photo by Darren Berk
