2020 LAST RACE RACE

WAUKEGAN YACHT CLUB, WAUKEGAN, ILLINOIS

SEPTEMBER 26, 2020

We have finally received all the finish times for the race from Waukegan to Kenosha. One of the racers noted an error in our start time calculations. The reverse PHRF calculation was based on a distance of 12 nautical miles. They notified us that the actual distance was more and we measured it ourselves using OpenCPN from the exit of Waukegan harbor to the finish line defined in the racing instructions. The actual distance is 13.8 NM. This is based on a course that clears all shoal waters marked on the chart. The new distance created a difference in the start times noted below. We added that difference to the finish time to achieve the Corrected Finish shown. We apologize for the error and will use the new distance in all future races.
